SUMMARY

Third-year B.Tech CS (AI & ML) student at SRMIST with 8.74 GPA, seeking software engineering or AI/ML internship. Skilled in full-stack development (React.js, Node.js, MongoDB) and AI/ML systems (PyTorch, XGBoost, scikit-learn) with a strong foundation in data structures, algorithms, and RESTful API design.

EDUCATION

B.Tech in Computer Science with AI & ML | Expected July 2027 | **GPA: 8.74 / 10.0**

S.R.M Institute of Science and Technology, Chennai, Tamil Nadu

TECHNICAL SKILLS

Languages: Java, Python, C, JavaScript, HTML5, CSS3, SQL

Frameworks & Libraries: React.js, FastAPI, Node.js, PyTorch, scikit-learn, XGBoost, pandas, NumPy

Databases: MongoDB, MySQL

Tools & Concepts: Git, GitHub, REST APIs, JDBC, Postman, OOP, DSA, Agile Development

PROJECTS

Harmony — AI Playlist Maker | Python · scikit-learn · Web Scraping · Recommendation Systems

- Built an AI music playlist generator using mood classification (scikit-learn) across 5 categories to surface personalized top-20 track recommendations.
- Used web scraping to collect song metadata (artist, genre, tempo, popularity) from public music sources, building a custom dataset for the recommendation engine.
- GitHub: <https://github.com/SriParth-alt/AI-PLAYLIST-MAKER>

GrindMind — AI-Based Microgrid Energy Optimization | Python · PyTorch · DQN · XGBoost · ASHRAE Dataset

- Developed a microgrid energy management system using Deep Q-Network (DQN) RL combined with XGBoost & Random Forest demand forecasting on the ASHRAE dataset, minimizing operational cost and energy wastage.
- Modeled microgrid as a custom RL environment (State-Action-Reward) achieving stable DQN convergence and measurable cost reduction vs. baseline rule-based strategies.
- Evaluated model performance using RMSE/MAE for demand forecasting and reward convergence graphs for RL training stability, validating hybrid ML + RL approach.
- Transitioned pipeline from synthetic data to real-world ASHRAE dataset, improving model generalization and demonstrating production-readiness of the system.
- GitHub: <https://github.com/SriParth-alt/GRIDMIND>

CERTIFICATIONS

- Oracle Cloud Infrastructure 2025 Certified Generative AI Professional — Oracle University (Valid until Apr 2028)
- Introduction to Machine Learning — NPTEL, IIT Kharagpur (Jul–Sep 2025)
- Programming in Java — NPTEL, IIT Kharagpur
- Data Analyst — Trainity | Data Analytics Essentials — CISCO
